NICE⁵⁰ - DOMESTIC

SHALLOW INLINE DRAINAGE SYSTEM

Driveway / Pedestrian duty - Load class A15 = 1.5 tonne

100 x 50 i
138 x 80 e
(mm)

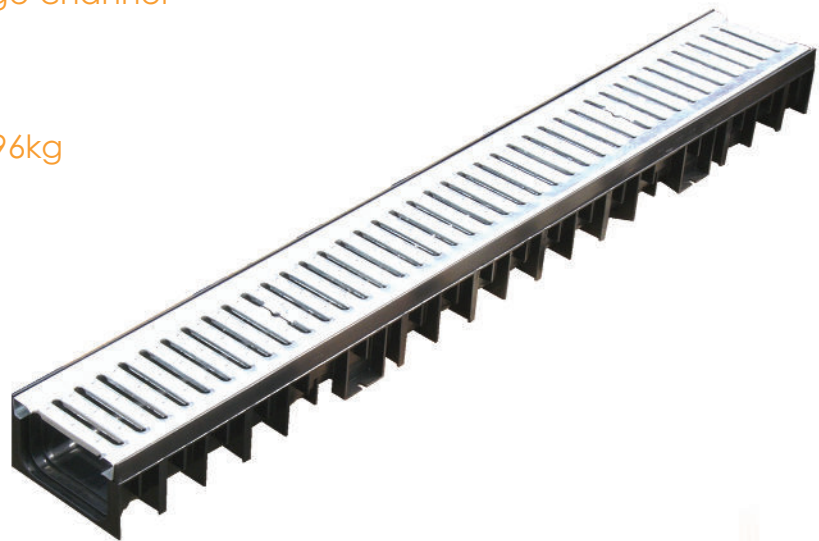

NICE50 HDPE drainage channel

i = internal

e = external

1000mm long

Channel weight = 0.96kg

NICE50 is a real winner for gardens, patio's & domestic driveways where a limited excavation is often required.

- Easy to maintain.
- Quick and easy to install.
- Ideal for all light duty situations.
- Light but incredibly tough means no problems in transportation or storage and of course no breakages.
- Unobstructed channel cross section.
- Choose from traditional galvanised or matching black gratings.
- Tongue and groove connection for a professional installation.
- HDPE channel can be cut with general purpose saw.
- Temperature tolerant HDPE maintains the same characteristics of strength and elasticity from -50°C to +100°C.
- For use in all light duty situations i.e., gardens, patio's & domestic driveways.
